

Aluminium Fluted InQ-Totem®

A highly visible signage solution with four replaceable panels. It secures around Tensabarrier® posts to display impactful brand campaigns, directional messaging and customer guidance.

Features & Benefits

Durable: Aluminium build provides increased durability and resistance to wear and tear.

Simple Installation: Hassle-free set up and removal with Velcro straps that secure the totem to the post.

Passenger Flow: Display important messaging to ensure a seamless passenger journey, such as boarding information and tasks required for progression.

Adjustable: Display panels slide up and down the frame, allowing for easy replacement. Ensures future messaging can be updated efficiently.

Highly visible: Branding and artwork easily seen by passengers.

Eye-catching: Above crowd height profile can be seen from a distance.

Customisable: Print with messaging, branding, artwork and colours depending on design needs.

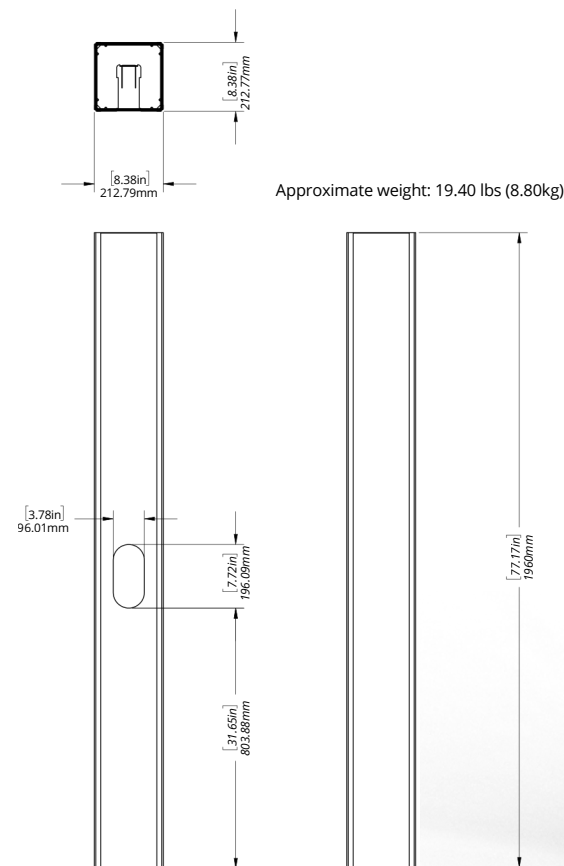

Lightweight: Easy to lift, fit and transport.

Applications

Suitable for: Airports, exhibition venues, sports & music events, and large retail stores where managing customer flow and providing clear information is crucial.

Please note:

- This product MUST always be correctly fitted to a tensabarrier® to create stability in line with testing results.
- Recommended fitting: A fixed base Tensabarrier®, or heavy-weight base Tensabarrier®. The totem should be laid on the floor to slide panels in and out.
- This product must not be treated as load bearing or used to hold/support other non-approved items.
- Internal use only.
