

TENSATOR®

TMP WALL PROTECTION PANELS

TMP WALL PROTECTION IS THE MOST DURABLE & COST-EFFECTIVE WALL PANELLING SOLUTION AVAILABLE ON THE MARKET & WILL ULTIMATELY INCREASE YOUR RETURN ON INVESTMENT.

Our experience in the health care sector means we understand that maintaining all walls within a health care facility is one of the biggest challenges and costs that is faced by facility maintenance teams.

TESNATOR WALL PROTECTION PANELS

Tensator has developed, an already proven wall protection product that is stronger and more durable than PVC and does not require continuous replacement - dramatically increasing your ROI. It provides you with a durable solution from trolleys, beds, trucks and the general movement of people through the hospital, but is also fully customisable as required within your environment.

WHY DO YOU NEED WALL PROTECTION PANELS?

The wall protection panels can dramatically reduce redecoration and repair costs due to the wipe clean anti-graffiti surface of the panelling, which also has a high resistance to surface wear, scratching and staining. The non-porous surface allows for simple and hygienic cleaning preventing the spread of bacteria.

WHERE CAN THE WALL PROTECTION PANELS BE USED?

Our health care wall protection panels are designed for high impact areas such as:

- ✓ Reception & waiting rooms
- ✓ Hallways & lift lobby's
- ✓ Wards & bed head protection

TENSATOR®
