

TENSATOR®

Post & Rope Solutions

LAWRENCE®
— ESTABLISHED. NEW YORK, 1881 —

About Lawrence Metal®

For more than a century, the Lawrence® name has been recognised as the hallmark of the finest quality design, manufacturing and customer service for the world's hospitality industry. Gracing the red carpet at movie premieres, award ceremonies and the lobbies of the world's finest hotels, a Lawrence post will re-create the glamour of the VIP experience wherever it is deployed.

The Lawrence® brand can be traced back to a small metal-fabricating shop founded in 1881 in New York City. Surviving two world wars, including a temporary closure in the 1940s when all metals were diverted to the war effort, the brand forged its reputation as the world's premier manufacturer of decorative crowd control stanchions under the name Lawrence Metal® Products.

In 2006, Tensator® acquired the company and the world-famous Lawrence® brand. Today, more than 140 years since its inception, Tensator® is proud to offer the full and finest range of Lawrence® post and rope stanchions throughout its global network of companies and sales partners.

Over the years, Lawrence® stanchions have seen off more than their fair share of look-a-like competitors, but, with heritage dating back to 1881, why would you take a chance on a "here today, gone tomorrow" provider, when you can have the real deal for a lot less than you might think. As track records go, we think over 140 years of producing the finest quality products is pretty hard to beat. So for quality you can rely upon, at affordable prices, buy your own piece of history; buy Lawrence® from Tensator®.

Rope Length

Rope is available in 1m and 2m lengths. We can cut down rope lengths to match your exact requirements, but we recommend the maximum rope length (distance between our posts) is 2m.

To create the optimum layout, we suggest the following:

- Take the tight measurement from the centre of one post to the centre of the other post
- Add 10% to the length, to allow sufficient hang
- Round up to a 1m or 2m rope length and specify the exact sizing when ordering

For example: The measurement is 1.2m, adding 10% would make it 1.3m. So order a 2m rope length, and specify that you require 1.3m when ordering.

To provide maximum flexibility should you ever need to reconfigure your layout, we advise you to buy ropes in a selection of 1m and 2m lengths.

Rope Styles and Colours

Tensator offers a selection of rope styles and colours, to match your corporate colours and best suit your environment.

Twisted Rope

A hardwearing yet stylish 25mm diameter rope; available in a choice of more than 4 colours. Available in 1m or 2m rope lengths.

48 Beige

- 33 Black
- 25 Royal Blue
- 43 Maroon
- 48 Beige

Other colours available upon request

Polyhemp Rope

For a sturdy natural rope, which will complement any environment, opt for a 38mm diameter polyhemp rope. Available in 1m or 2m lengths.

50 Natural

- 50 Natural

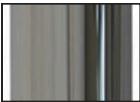

Snap Ends

Our spring loaded snap ends are available in 2 colours, to enable you to elegantly match the snap end to your post colour. Please note each piece of rope requires two snap ends. The type of rope you select will determine the snap end size that you require; we offer 25mm and 38mm diameters in all 4 finishes.

	Polished Chrome	Polished Brass Effect
25mm Diameter	450-1P	450-2P
38mm Diameter	550-1P	550-2P

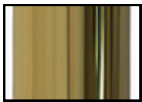

Wall Plates

Wall Plates provide an alternative method to connect rope to a wall or other vertical surface (saving the expense of an additional post). Wall plates provide a discreet solution, perfect for when doorways or corridors require cordoning off. Wall plates are available in 2 finishes and can accept 2 snap ends on each plate.
