

Tensamedia® Fluted InQ-Totem®

A lightweight, high-visibility signage solution that fixes to a Tensabarrier® to display impactful brand campaigns, directional messaging and customer guidance.

Order Code: 14752

Features & Benefits

- Simple Installation:** Velcro pads secure closure of the totem around the Tensabarrier®, allowing for easy set-up by staff.
- Secure:** 4 x internal high density foam holders secure the totem to Tensabarrier® posts.
- Improved Passenger Flow:** Display important messaging to ensure a seamless passenger journey, such as boarding group information and tasks required for progression.
- Highly Visible:** Branding and artwork easily seen by passengers.
- Eye-catching:** Above crowd height profile can be seen from distance.
- Lightweight:** Easy to lift, fit, and transport.
- Customisable:** Print with messaging, branding, artwork, and colours depending on design needs.
- Space Saving:** Integrates the signage directly onto your queue system, minimising the footprint.

Product Specification

- High Quality:** Clear and detailed print finish.
- Resistant:** Matt laminate material provides anti-scuff surface finish.
- Easy To Read:** Anti-glare surface allows for consistent displays to passengers.
- Connectivity:** Outlet slot designed for easy connection to adjacent Tensabarrier® products.
- User Friendly:** No cable ties or tools needed for set up. Instructions clearly printed on inside of totem.

Please note:

- This product MUST always be correctly fitted to a Tensabarrier® to create stability in line with testing results.
- Recommended fitting: a fixed base Tensabarrier®, or heavy-weight base Tensabarrier®.
- Internal use only.
- This product must not be treated as load bearing or used to hold / support other non-approved items.
